

Bigfoot Cleypora

(*Ternstroemia gymnanthera* 'Sotall' PP13680)

Mature Size: 15-20ft tall and 5-6ft wide

Exposure: Full sun to part shade

Plant Highlights: Fast-growing, large evergreen shrub or small tree. New growth emerges light green, ages to glossy dark green in summer and turns red-bronze in fall; holly-like berries add to the winter interest.
